

Husqvarna LG 400

LG 400 is a powerful, reliable reversible plate compactor, developed for efficient compaction of deep and medium-deep granular soil. It makes an effective alternative or complement to rollers when compacting in confined areas. The Lombardini 15LD 440 diesel engine features an electric start and ergonomic, service-friendly design. A compaction indicator is optional.

- Motor/engine model **4-stroke air-cooled**
- Output power **6.2 kW**
(As rated by the engine/motor manufacturer)
- Speed **25 m/min**
- Weight **436 kg**

FEATURES

Want to take a closer look? Learn more about the product in depth by exploring its features and benefits.

Plates made to last

The plates are made from the extremely durable and wear-resistant Hardox 400 steel. The special design keeps rocks from getting stuck between the plate and frame.

Strong protection, easy transportation

The heavy-duty steel frame protects the engine and transmission. The frame is also equipped with a lifting eye for easy transportation.

Know when you're done

The optional compaction indicator tells you when the ground is ideally compacted and when to move on to the next task, saving you time and money.

Ergonomics and efficiency

The vibration damping handle allows you to work efficiently for hours.

- Easy operation
