FEATURES

Want to take a closer look? Learn more about the product in depth by exploring its features and benefits.

Smart design

A precision turn-buckle allows to camber the screed sections independently.

Easy setup

Easy to assemble by a single operator.

Engineered to last

Triangular frames, and square tubes provide better rigidity. Oscillating bearing with grease nipples extend the product life-time and serviceability.

Built to perform

Low profile steel frame ensures durability. Low center of gravity gives stability in low slump concrete.
