

Husqvarna DS 900

DS 900 is a drill stand for big diameter core drilling. It is a robust, stable stand ideal for tough applications. DS 900 works especially well together with DM 650 core drill motor, part of the PRIME™ product range. The excellent power-to-weight ratio and user-friendly setup together with the high stability and robustness of the stand, offer you a complete setup and is the perfect choice for heavy-duty applications. DS 900 is designed with the same column as the wall saws in the WS 400 range. This makes it a very flexible system since the column is interchangeable between drill stand and wall saw.

○ Drill bit diameter, max **900 mm**

● Travel length, max **950 mm**

FEATURES

Want to take a closer look? Learn more about the product in depth by exploring its features and benefits.

Flexible system with wall saw column

The column is interchangeable between drill stand and wall saw.

- Attachment kit
- Ideal for all core drilling up to 900 mm

Robust and rigid stand

The robust stand with high stability makes it ideal for tough applications.

Modular stand

The perfect match to DM 650 and DM 406 core drills. Can also be used with other drill motors in our range.

Easy to set up and use

Equipped with a carry handle on the back support and an ergonomic 3 spoke handle. An optional wheel kit can be attached for easy transportation. This will minimise the set-up time and give efficient drilling.

- Precision drilling of deep holes and holes with big diameters
- Heavy-duty applications
