

FLOOR SCARIFIERS

HUSQVARNA BMP 265

Art.no: 970 61 56 01

BMP 265 scarifier is powered by an electric motor and is ideal for medium and large-sized applications. This machine benefits from an ergonomic design. The braking system with a steering handle will slow down the machine itself for a user friendly high performance scarifying machine. The working depth of the drum with cutting/milling tools is easily adjustable and precise to the millimetre. It comes equipped as standard with a complete drum with cutters.

FEATURES

Braking system

During scarifying, the machine slows down itself. The brake force can be changed quite easily with the handle on steering.

Centred down force

This scarifier is built so that the weight of the machine is centered in order to create a maximum down force on the rotating drum.

Precise height adjustment

The working depth of the drum is easily adjustable, this means no underground deterioration. Quick lifting/lowering of the milling drum mechanism.

Literal drum loading

This machine is especially designed so that the drum can be removed from the machine from the side without having to move the machine.

TECHNICAL DATA HUSQVARNA BMP 265

Art.no: 970 61 56 01

HUSQVARNA BMP 265

MOTOR

Output power	5.5 kW
Voltage	400 V
Rated current	16 A
Power source	Corded

PRODUCT DATA

Rotational speed	1,500 rpm
Working width	26.5 cm
Productivity	120 m ² /h
Type of operation	Push

DIMENSIONS

Product size length	1,260 mm
Product size width	514 mm
Product size height	1,160 mm
Weight (complete product w/o side packed articles)	175 kg
Packaging length	1,400 mm
Packaging width	600 mm
Packaging height	1,310 mm
Article gross weight	1,93,000 g

SOUND AND NOISE

Sound pressure level at operators ear (LpA)	96 dB(A)
---	----------

VIBRATION

Vibrations handlebar	5.1 m/s ²
----------------------	----------------------
